Dear Sir,

I am writing to you concerning the MP's expenses debacle, knowing you have been given the task of looking into a new MP's procedure, this I feel should only be the first stage, with an overseeing body, consisting of a citizens council of nominated persons from various parts of our great country, with one of each Parliamentary party MP's who are not tainted with this disgrace.

This I feel is the only way forward, for our great democracy, as it's our people that are the only power that is trustworthy and honest, to stop this constitutional disgrace.

I await your reply to this most urgent constitutional matter.

Yours Sincerely
